# TE Supplier Portal

- To obtain access to the Secured TE Supplier Portal, each person is required to go through the Self-Registration process by clicking on the **New User? Register** link.
- Supplier Registration is available to you if you currently or have recently supplied products or services to TE Connectivity (TE) and you do not at this time already use secured applications available on the TE Supplier Portal.
- **WHY REGISTER?** The TE Supplier Portal offers secured access to applications, which will provide suppliers with the ability to:
  - Respond to quote requests
  - Improve order & inventory management
  - Access Quality and Compliance documents / applications
  - Submit Electronic Invoices and Check Invoice Status
- **What is Required for the Registration Process?**
  - For the first step of the registration process, you will be required to enter a PO Number and your Supplier ID.
